### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Ripma on 12/17/03.

The application has been amended as follows:

In claim 1, line 8, after "removing", --only-- has been inserted.

In claim 10, line 10, after "removing", --only-- has been inserted.

The following is an examiner's statement of reasons for allowance: the prior art, either singly or in combination, fails to anticipate or render obvious, the limitations of: removing only the placeholder sidewalls forming vacated areas, as required by independent claims 1 and 10. Additionally, the prior art also fails to anticipate or render obvious, the limitations of: depositing a first nitride layer to a thickness of between about one nm and 100 nm and etching the nitride layer to form nitride sidewalls about the oxide segments, and etching the nitride sidewalls to form microtrenches which extend between bit contact areas and ground contact areas, as required by independent claim 16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
